Subject: Well-drilling moratorium

CAUTION: External Sender. Please do not click on links or open attachments from senders you do not trust.

Dear Supervisors:

Please extend the moratorium on drilling new wells in the Focus Areas of Yolo County for the next 10 months and 15 days. This time is needed to collect data and get a better understanding of the hydrogeologic characterization of these sensitive areas.

Thank you for your previous vote in favor of a moratorium, and thank you for protecting Yolo County's water resources.

Yours truly,
Jean Shepard
