Dear Yolo Board of Supervisors,

Thank you for the temporary moratorium on new wells in the Hungry Hollow. This historically dry farmed area is being tapped into too fast and too widely to know how our precious aquifer will respond and recover. So I'm asking you to please extend the moratorium in the focus area until it can be thoroughly assessed.

This is an opportunity to make sure that the Hungry Hollow doesn't become like the Cuyuma Valley!

Thank you!

Julia Hobbs Thomas
