Greetings,

I have been informed that the 10/7 Board of Supervisors Consent Agenda has the Stop Sign at Barry Road and 99D as an item for review/voting. The neighborhood is very much in support of this request and for simplicity we've put together a single letter signed by 66 residents of the neighborhood (representing 43 of the 54 residences). I have been leading a neighborhood effort to help support this request. We have received data from the two radar signs on 99D adjacent to our neighborhood from Yolo County Public Works and have included that objective information in our letter of support.

Please share this letter with the supervisors, and feel free to let me know if you have any questions or need anything else. We've left off specific house numbers in the signature section since it will be part of the public record, however I do have those additional details if needed. We also plan to have some residents at the meeting in person to provide statements in support.

Thank you,
David Hatker
39861 Barry Road
