Sirs,

I am in complete opposition to this cut to the Yolo County Archives. It is essential that we record and store our county legacy and keep the information in a place where it can be accessed by the community, especially at this time where it seems we are losing institutions and community members as time passes.

In particular we have to keep the staff to accomplish this need. Key to this work is Rachel Poutasse who has shown her enthusiasm and expertise in helping others to accomplish this need.

The Archives are very important in preserving interviews and the recordings of the Early Mexican Families of Yolo County project that a team is undertaking.
