To Whom It May Concern,

I am writing to express my concern regarding the growing cat population in Yolo County, as evidenced by the numerous posts on Nextdoor about found litters of kittens.

To address this issue, I strongly urge Yolo County to expedite the establishment of a low-cost spay/neuter clinic and fill the second veterinarian position at the Yolo County Animal Shelter, which has been vacant for over a year.

Without accessible and affordable spay and neuter options—particularly for community and feral cats—the population will continue to multiply rapidly, leading to unnecessary animal suffering.

Thank you for your time and attention to this urgent matter.

Sincerely,
Lindabeth Schmucker
Davis, CA
